Welcome to the resort town of Tauberbischofsheim!

The northernmost city of Baden-Württemberg is worth a visit for its wide range of tourist offers – ranging from sights and attractions to events. Tauberbischofsheim is characterized by its historic city core as well as plenty of half-timbered houses alongside the newly designed pedestrian zone and the market place, where the neo-gothic townhall is the most striking building of all.

Ranging from churches, chapels and museums to the fencing center, there is a lot to explore and experience in Tauberbischofsheim.

In the year 2014, Dienstadt looked back at its 700 years of history. The town and its around 336 residents are located in a romantic side valley of the river Tauber. The pilgrim route “Jakobs-wanderweg Taubertal” will lead you through this town with the prominent Church Jakobskirche and the Jakobsbrunnen as well as the old school building from 1888, which is under historic preservation. Located in the outskirts of Dienstadt, there is an idyllic recreational area with the possibility to tread water at the Kneipe facility. Here you will also find a pond, a playground and a beach-volleyball field as well as a barbecue area, so it’s the perfect place for young and old to enjoy their stay.

The town of Hochhausen – 766 residents – is in the north of Tauberbischofsheim connected to a more rural town center (Gräunaue Hof, Gasthaus Engel). Located right next to the river Tauber, Hochhausen has the most charming Tauber-bridge of Baden. Furthermore there are shell limestone slopes with neglected grassland, which is a paradise for rare insects. Besides that you have a lively community, restaurants right beside the river, neat holiday apartments and guestrooms as well as a good public transportation and leisure activities such as: The 5*-Cycle route “Liebliches Taubertal”, Hiking trails with a view of the Tauber-valley, canoe tours and gliding.

The precious medieval frescos in the church St. Nikolaus make Impfingen with its 1.128 residents worth a visit. Besides that there are beautiful wayside shrines on the loop hiking trail and a small village museum in the old school building. Impfingen provides plenty leisure activities and clubs. The attractive building area is in high demand because of the beautiful view of the Taubertal and its location close to the city core. Especially young families are attracted by Impfingen because of the local elementary school, Kindergarten as well as playgrounds and sports grounds. The renaturation of the river Tauber gave Impfingen a local biotope. The landscape, scenery and insects benefit from the growing ecological diversity. Taking the cycle route in or out of Impfingen (Erlebnistour 7: TBB by Bike), the tour will guide you alongside the renaturalized river Tauber.

Dittigheim and its 938 residents have a lot of history to tell: The findings of a prehistoric grave verify that people first settled here as long as 4000 years ago. The first mentioning of todays Dittigheim goes back to the year of 768. The baroque church St. Vitus which was built by Balthasar Neumann from 1748 to 1752 as well as the generously decorated wayside shrines are worth a sight. The town which is known for its wine is located along the 5*-Cycle route “Liebliches Taubertal” south to Tauberbischofsheim and on the lefthand side of the river Tauber.
